Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-18 are rejected under 35 U.S.C. 102(e) as being anticipated by Fascenda (US 2004/0068653).

Regarding claims 1 and 10, Fascenda discloses a multiple subscription subscriber identity module (SIM) card 232 for use with portable devices, the card including a subscription identity module (SIM) coupled to the card, the SIM including a plurality of sets of subscription parameters, wherein a single set of subscription parameters is selected from among the plurality of sets of subscription parameters and wherein the selected set of subscription parameters is activated. See FIG. 2, paragraph 75, lines 1-19 and paragraph 76, lines 1-27.

Regarding claims 2 and 12, Fascenda discloses that at least one set of subscription parameters corresponds to one of a plurality of different operating markets of use for the SIM card. See paragraph 76, lines 1-7.

Regarding claims 3 and 13, Fascenda discloses that the SIM has a default set of subscription parameters from among the plurality of sets of subscription parameters, wherein the default set of subscription parameters is selected unless a set of subscription

parameters different from the default set of subscription parameters is selected. See paragraph 45, lines 1-17.

Regarding claims 4 and 14, Fascenda discloses that the SIM further includes a software interface for selecting which one of the plurality of sets of subscription parameters to activate. See paragraph 43, lines 1-19.

Regarding claims 5 and 16, Fascenda discloses that the software interface is activated upon powering up the SIM card, unless one set of the plurality of subscription parameters has been selected/activated. See paragraph 45, lines 1-17.

Regarding claim 6, Fascenda discloses that the software interface further includes a menu-based software interface. See paragraph 48, lines 1-5 and paragraph 49, lines 1-10.

Regarding claims 7 and 17, Fascenda discloses that during activation of the card, the set of subscription parameters is automatically selected based on the market in which the SIM card is activated. See paragraph 53, lines 1-17.

Regarding claim 8, Fascenda discloses that at least one set of the plurality of sets of subscription parameters includes an Integrated Circuit Card Identifier (ICCID). See paragraph 36, lines 1-7.

Regarding claim 9, Fascenda discloses that at least one set of the plurality of sets of subscription parameters includes an International Mobile Subscriber Identity (IMSI). See paragraph 34, lines 1-11.

Regarding claim 11, Fascenda discloses updating the SIM module with the selected set of subscription parameters. See paragraph 76, lines 1-27.

Regarding claim 15, Fascenda discloses that the selecting step further includes instructing the software interface to select one set of subscription parameters from among the plurality of subscription parameters and instructing the software interface to update the SIM module with the selected set of subscription parameters. See paragraph 76, lines 1-27.

Regarding claim 18, Fascenda discloses that the selecting step further includes the steps of deactivating the selected set of subscription parameters, selecting a different set of subscription parameters, and updating the SIM module with the newly selected set of subscription parameters. See paragraph 53, lines 1-17.

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Girard (US 2003/0119482) discloses making secure data exchanges by selecting parameters in a SIM card.
